

AED Ready Program

The Problem

- ☹ Over **1,000** cardiac arrests occur **everyday** in North America.* (*source AHA)
- ☹ #1 cause of death in businesses and public places in Canada
- ☹ **With immediate care over 50% of cardiac arrests are treatable**
- ☹ **Sadly only 5% survive** because on average **paramedics arrive in 10 minutes - TOO LATE!**

The Answer – The Ultimate AED Ready Program

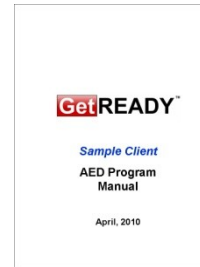

- ☺ An Automated External Defibrillator (AED) is the **definitive treatment**.
- ☺ **CPR** must be started **immediately** and an **AED** must be used within **5 minutes**.
- ☺ Our *AED Ready Program* gets the AED in the workplace.
- ☺ Our *AED Ready Program* enables staff to look after themselves while waiting for paramedics

Our Program

We include:

- ✓ Automated External Defibrillator (AED)
- ✓ AED Ready Bag (carrying case and first aid supplies)
- ✓ Training and certification for your staff
- ✓ Free online training videos
- ✓ AED Program Manual (Ready Plan, equipment tracking sheet, forms, policy and procedures, training rosters).
- ✓ Tracking and complete READY Program Support
- ✓ Ready award
- ✓ Critical Incident Stress Debrief

(9"W X 5"D X 11"H)

Our Team
